JEDINSTVENA BAZA NERAZVRSTANIH CESTA GRADA SINJA

Uvod

Na zahtjev investitora – GRAD SINJ, Dragašev prolaz 10, 21 230 SINJ – izrađena je JEDINSTVENA BAZA NERAZVRSTANIH CESTA NA PODRUČJU GRADA SINJA, a sukladno zakonskoj obvezi iz čl. 107. stavak 3. Zakona o cestama (pročišćeni tekst zakona NN 84/11, 22/13, 54/13, 148/13, 92/14 na snazi od 05.08.2014.).

Baza nerazvrstanih cesta ima za svrhu olakšati proces evidentiranja nerazvrstanih cesta u katastarskom i zemljišno-knjižnom operatu, omogućiti apliciranje na poticajnu Mjeru 7 Ministarstva poljoprivrede i biti upravljački mehanizam u donošenju bitnih odluka u budućnosti.

Budući da stavak 4. navedenog članka propisuje da sadržaj i način vođenja jedinstvene baze podataka o nerazvrstanim cestama propisuje ministar pomorstva, prometa i infrastrukture uz suglasnost ministra nadležnog za poslove komunalnog gospodarstva, a ministar do danas nije propisao na koji će se način voditi baza

nerazvrstanih cesta i što će ista sadržavati, izrađena je baza podataka kojom su obuhvaćeni svi relevantni podaci za svaku nerazvrstanu cestu zasebno.

Sadržaj baze podataka

Jedinstvena baza nerazvrstanih cesta sadržava grafički prikaz svih nerazvrstanih cesta na području grada Sinja te tabelarni prikaz atributnih podataka svake nerazvrstane ceste zasebno.

Preglednosti radi, grafički prikaz je nadopunjen sa lokalnim, županijskim i državnim cestama, iako iste nisu sastavni dio jedinstvene baze.

Model atributnih podataka sadrži sljedeće atribute:

- jednoznačni identifikator
- naziv/opis nerazvrstane ceste
- duljina nerazvrstane ceste
- naselje
- mjesni odbor
- katastarska općina
- katastarska čestica
- napomena

Jednoznačni identifikator predstavlja jedinstvenu oznaku svake nerazvrstane ceste unutar baze. Generiran je na način da su nerazvrstane ceste grupirane prema pripadnosti pojedinom naselju te im je dodijeljen redni broj unutar cjelovite baze. Tako npr. oznaka „NC-GLA-179“, predstavlja nerazvrstanu cestu u naselju Glavice, rednog broja 179.

Gradu Sinju pripada 14 naselja. U nastavku je popis svih naselja te njihovih pripadnih kratica korištenih u jednoznačnom identifikatoru: Bajagić (BAJ), Brnaze (BRN), Čitluk (ČIT), Glavice (GLA), Gljev (GLJ), Jasensko (JAS), Karakašica (KAR), Lučane (LUČ), Obrovac Sinjski (OBR), Radošić (RAD), Sinj (SIN), Suhač (SUH), Turjaci (TUR), Zelovo (ZEL).

U jedinstvenu bazu nerazvrstanih cesta implementirana je troslojna arhitektura: prezentacijski, logički i podatkovni sloj, pri čemu podatkovni sloj vrši pohranu svih prostornih podataka, logički sloj prima, obrađuje i prosljeđuje korisničke upite, a prezentacijski se sloj odnosi na korisničko sučelje koje korisnicima omogućuje pristup i interakciju s kartama, alatima i prostornim podacima. Baza podataka je

koncipirana na način da je omogućeno proširivanje i nadopunjavanje modela atributnih podataka, u skladu s potrebama koje se s vremenom budu javljale.

Baza nerazvrstanih cesta Grada Sinja dostupna je preko web preglednika, te je omogućena interakcija korisnika s bazom preko sljedeće poveznice:
